

Nevada Ending the Epidemic Workgroup
Monday, January 13, 2020, 12-1pm
Meeting Notes

- I. Introductions- 30 workgroup members on the call
- II. Updates

December 1 WAD FTC Event- Marlo: The WAD was a success! There were about 70 people present and multiple news outlets. There were many presentations done by people who are living this HIV, political leaders, and Angel, the SNHD epidemiologist. At the end of the event, Las Vegas was signed on as a Fast Track City.

Needs Assessment Update:

The EHE team is almost done with the development phase and will be entering into the implementation phase soon! The EHE team has been hard at work designing three surveys and focus group questions for those who are living with HIV and those who are at risk. Data collection will start in January 2020 and will end on April 30, 2020. The modes of data collection will be three surveys and 18 focus groups. The surveys will target community members, providers, and providers in training. The EHE team is currently recruiting agencies to host focus groups in Carson City, Clark County, Tonopah, Elko, Storey County, and Washoe County. If your agency is interested in hosting a focus group, please contact Victoria Young. The focus group will need a room for 90 minutes and help with participant recruitment, and the EHE team will do the rest. If your agency is interested in disseminating the surveys, please contact Victoria Young. We have incentives for focus group participants and clinics/agencies that help with the survey dissemination.

The EHE team will be working with Paula Frew, Ph.D., UNLV School of Public Health, for the messaging component of focus groups and plan. Paula introduced herself and described her experience working with HIV messaging material with the CDC.

- III. Other announcements?

Next meetings: 12-1 pm via phone:

Call-in: 1-669-900-6833 Meeting ID: 684 551 843

- Monday, February 10
- Monday, March 9

There were no other announcements or comments. The meeting ended at 12:35 pm.
