

Nevada Ending the Epidemic Workgroup
Monday, March 9, 2020, 12-1pm
Meeting Notes

I. Introductions

- Marlo, with the SNHD, notified the EHE team that they would be applying for a grant in April and requested EHE to write up a portion for the marketing and training of providers. AECT agreed to collaborate on the grant.
-

II. Updates:

Statewide needs assessment update:

We are in the data collection phase of the EHE statewide needs assessment until April 30, 2020. The community engagement, the provider, and the provider in training surveys were all release at the end of February and early March. To date, the provider survey has 95 responses, the providers-in-training survey has 115 responses, and the community engagement survey has 50 responses in English and eight responses in Spanish.

To date, we have conducted eleven focus groups. Seven of the focus groups were conducted in Clark County, three of the focus group were conducted in Washoe County, and one provider focus group was conducted. Nine more focus groups are scheduled in Clark, Elko, Esmeralda, Storey, and Washoe Counties; they will be completed by March 30, 2020.

If any agency would like to host a focus group or disseminate surveys, the EHE team has incentives for both clinics and focus group participants. The clinic with the most completed survey will have a lunch hosted, and every participant in the focus group will receive a \$25 gift card as a thank you.

III. Other announcements?
