What is CAREWare?

OVERVIEW OF CAREWARE

CAREWare is free, scalable software for managing and monitoring HIV clinical and supportive care and will quickly produce a completed Ryan White HIV/AIDS Program Services Report (RSR) for meeting reporting requirements to the federal grantee, the U.S. Department of Health and Human Services, Health Resources and Services Administration, HIV/AIDS Bureau (DHHS, HRSA, HAB).

Nevada CAREWare is a secure, centralized, software application designed to report client-level data from HIV services programs funded through Part B of the Ryan White HIV/AIDS Program, as well as through state dollars. Ryan White and state funds are used in Nevada to support core medical and essential support services. Nevada CAREWare is used to report information about clients served by providers funded through the Part B grantee, Office of HIV/AIDS (OHA), Division of Public and Behavioral Health (DPBH).

HOW CAREWARE DATA WILL BE USED

Demand for HIV-related services continues to grow, and the system of services available to persons with HIV disease is becoming more complex. Evaluating the success of these programs in meeting the needs of Nevadans with HIV disease, and reporting the activities of our providers to the federal government, state legislature, and community members are vital functions of the OHA. As the range of HIV services grows more complex, and needs continue to outweigh resources, monitoring the success of the entire system becomes more important.

SAFEGUARDING CLIENT CONFIDENTIALITY

Safeguarding the confidentiality of clients is of critical importance, at both the local and federal level. In order to maintain client confidentiality, the following will occur:

- Client names will not be reported to HRSA. Client level data will be reported to HRSA using an encrypted unique client identifier.
- The full birth date of clients will not be reported to HRSA. Only year of birth will be reported to HRSA.
- A client name will only be shared between OHA-funded providers serving that client. Access to client names by staff of the OHA will be limited to those few who have a job-related need (technical assistance, data management, system administration, and cross-reference with the HIV/AIDS Surveillance System).
- Client-specific information from CAREWare will only be shared with an entity other than the State of Nevada and its subdivisions, HRSA, funded providers, or consultants specifically contracted for data analysis if a client has given his/her consent.
- All clients of HIV services will be informed that this information is being collected by OHA in order to comply with federal law and to improve the HIV services system.

 See Policy 15-24 Data Security and Confidentiality for additional guidance.

Getting Ready for CAREWare

USER REQUIREMENTS TO ACCESS CAREWARE

In order to establish a new account to access Nevada CAREWare, you must complete the following steps:

- 1) Complete annual client privacy/HIPAA training.
- 2) Complete the CAREWare Roster Create/Change/Delete Form (Form 15-25)
- 3) Complete the CAREWare User Agreement Form (Form 15-20)
- 4) Submit the completed, signed forms to Office of HIV/AIDS

Once your user account has been established, you will be contacted by OHA with your user name and passwords. You will be given one user name and two temporary passwords – one for CAREWare and one for Remote Desktop Web Access (RD Web Access).

Following your initial set-up as a CAREWare user, you will be required to complete the following steps on an annual basis:

- 1) Complete the annual client privacy/HIPAA training.
- 2) Complete the CAREWare User Agreement Form (Form 15-20) which attests the reading of Policy 15-24: Data Security and Confidentiality.

User Deletion Requests through Form 15-25 are completed the day that they are received. Please email CAREWareHelp@health.nv.gov when a staff member leaves your agency to ensure terminated access to CAREWare.

COMPUTER REQUIREMENTS TO RUN CAREWARE

Your IT Staff will be able to verify whether your computer meets the following specifications:

- 1) Your computer must have the Microsoft XP, Vista, or Windows 7 operating system
- 2) Your computer must have Microsoft .NET Framework Version 2.0 or higher installed
- 3) Your computer must have Microsoft .NET Framework 2.0 Service Pack 2 or higher installed

To unlock your account, reset your password, or if you have any specific questions regarding Nevada's CAREWare application – contact the OHA CAREWare Helpdesk at CAREWareHelp@health.nv.gov.

General Tips

- Visit the **CAREWare online manual** website at <http://hab.hrsa.gov/manageyourgrant/careware.html> for more information. Enroll in the listserv to get regular updates and tips from other CAREWare users across the country and important updates from HRSA.

The screenshot shows the HRSA HIV/AIDS Programs website. The header includes the U.S. Department of Health and Human Services logo, the HRSA logo, and the text 'Health Resources and Services Administration HIV/AIDS Programs'. A search bar is in the top right. The main navigation bar has links: About, Deliver HIV/AIDS Care, Get Help, Manage Your Grant (selected), Data, News & Publications, Global HIV/AIDS, and ACA. Below the navigation bar, the 'Manage Your Grant' section is active, showing a sidebar with links like 'Grantee Basics', 'HRSA Contacts', 'Policies and Program Letters', 'Reporting Requirements', 'CAREWare', 'Technical Assistance (TARGET Center)', 'Data Support and Technical Assistance', 'Severity of Need Index', 'HRSA Electronic Handbooks', and 'Apply for a Grant'. The main content area is titled 'Ryan White CAREWare' and includes a 'What is CAREWare?' section, a 'Download Software' section with links to 'CAREWare Business Tier Build 845' and 'Full Setup files for new users', and a 'CAREWare is 15 Years Old!' section. A yellow box highlights the 'Additional Resources' section, which contains links to 'CAREWare Help Desk', 'Frequently Asked Questions', 'Join or Leave the CAREWare Listserv', 'HAB Performance Measures', and 'Grantee-submitted Resources'.

- If you join the CAREWare Listserv create a rule in your Outlook to filter the messages so that you don't get stuck going through the emails that come through. [Click here for directions on how to create a rule within Outlook.](#)
- Be Patient.** CAREWare is accessed through a remote desktop and it takes time for messages and actions to be transmitted. Wait for the Communicating light bulb symbol in the bottom right hand corner to clear before clicking any other buttons.

- 📌 **Changing your password:** Changing your password is easy. When you first log in, click on **My Settings** on the main screen

A second window will appear. In this window, click on **Change My Password**.

A third window will appear. Enter your **New Password**. Passwords are case sensitive. Enter your new password again in the **Repeat New Password** field. And then click **Change Password**.

A screenshot of a 'Change My Password' dialog box. It has a title bar with the text 'Change My Password'. Inside, there are two input fields: 'New Password:' and 'Repeat New Password:'. Below the 'New Password' field is a button labeled 'Change Password'. To the right of the 'Repeat New Password' field is a button labeled 'Cancel'. The 'Change Password' button is highlighted with a red rectangular border.

If the password change is successful, you will see this window. Click **OK**.

A screenshot of a 'Quality Check' dialog box. It has a title bar with the text 'Quality Check' and a close button (X) in the top right corner. The main area contains the text 'Password has been changed.' Below this text is a button labeled 'OK'. The 'OK' button is highlighted with a red rectangular border.

Password Guidance

- 📖 Minimum password length is 8 characters.
- 📖 Passwords must contain at least one number and one special character (!, @, #, \$, %, ^, &, *).
- 📖 Maximum time to keep a password is 120 days. You will receive a message when it is time to change your passwords.
- 📖 Passwords should only be written down if they are kept in a secure location, such as a locked office or locked drawer.
- 📖 Passwords must not be disclosed to anyone other than the user.
- 📖 Passwords must always be changed after the system administrator issues a temporary password.

Other Information

- 📖 Idle user account timeout for CAREWare is 60 minutes.
- 📖 One connection is allowed per user.
- 📖 The account will be locked after five (5) consecutive, unsuccessful login attempts.

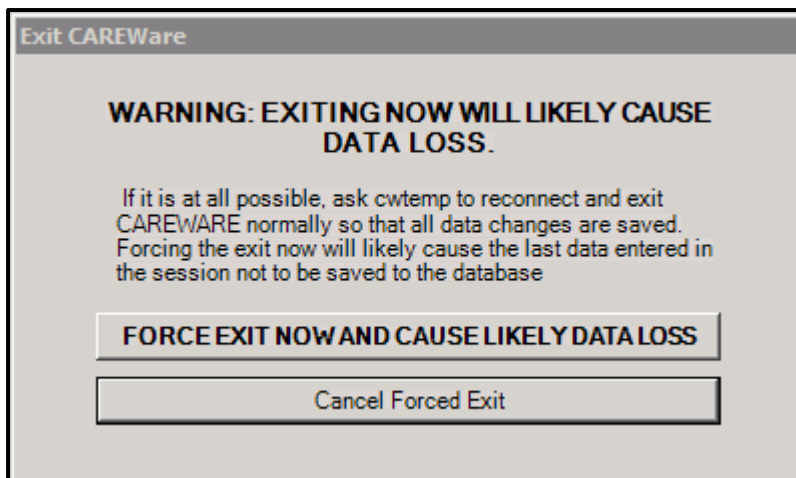

You have five attempts to enter your CAREWare username and password. If you enter your username and/or password incorrectly five times, the CAREWare Administrator at OHA will need to reissue a temporary password to you before you can attempt to log in again. If you are locked out, contact the OHA.

- 📌 **CAREWare Timeout:** For security reasons, CAREWare will automatically time out after **60 minutes** of inactivity. If this happens, you will receive an error message and will have to log back in to continue.

Re-entering your password and clicking Reconnect will take you back to the screen you were working on before your session became inactive.

If you click on Exit CAREWare, you will receive a warning that exiting now will likely cause data loss. If you are sure that you were not in the middle of something you need to save, you can go ahead and click Force Exit Now and Cause Likely Data Loss. Otherwise, click Cancel Forced Exit to return to the CAREWare Data Protection Service window where you'll be asked to re-enter your password in order to reconnect.

Client Data Entry

1. ADDING A CLIENT INTO YOUR PROVIDER DOMAIN

1. Log in to CAREWare. On the main screen, click **Add Client**.

2. The **Add Client** window will appear. You must enter **Last Name**, **First Name**, **Gender**, and **BirthDate**. Do not click the check box next to Forms. When you are done entering the information, click **Add Client** at the bottom.

The 'Add Client' window is shown. At the top right, there is a 'Generated URN:' label and an empty text box. Below this, there are five input fields: 'Last Name:', 'First Name:', 'Middle Name:', 'Gender:' (with a dropdown arrow), and 'BirthDate:'. A checkbox labeled 'Estimated?' is next to the BirthDate field. At the bottom left, there is a checkbox labeled 'Forms'. In the bottom center, the 'Add Client' button is highlighted with a red border. To the right of this button is a 'Cancel' button.

3. There are three possible outcomes that will happen after you click **Add Client**.

- a) If there are *no potential matches*, you will be taken to the client's Demographics screen. (See the [Adding Demographic Information](#) subsection for more information).
- b) If there is an *exact match*, the Possible Duplicate Client List window will appear.
- c) If there are *similar matches*, an Add New Client Confirmation Window will appear.

If you add a new client and are taken directly to the Demographic Information screen and you are not an Eligibility and Enrollment Provider, please consult [Appendix V; New CAREWare Client Immediate Referral](#) (link)

3b) Exact Matches will open the **Possible Duplicate Client List** window. Click **View more information about the selected client** to view the client's record. It might

be possible that the client is not a true match, so it is necessary to review all of the identifying information.

After reviewing, choose the appropriate option at the bottom of the window.

The new client information you have entered generates a URN that is shared by at least one existing client. View the details of the possible matching client(s) listed below to determine whether or not the client you are entering is really a new client.

3c) Similar Matches will open in the Add New Client Confirmation window.

[illegible]

In the **Score** column, you will see how likely the match is; the higher the score, the more likely a match the client is. You can select any client from this list and **click F2-Go To Client Screen** to view the client and see if it is a match to the one you are searching for.

If upon review, the client is a match: click **Close**, in the top right hand corner of the client screen. Then **Esc-Cancel** in the **Add New Client Confirmation** window. Then use the Find Client process to look up the existing client and edit the record.

If upon review, the client is not a match to any client already in CAREWare, click **Close** in the upper right hand corner of the client screen. Click **Add Client** at the bottom of the **Add Client** window. Click **F1-Add New Client** in the **Add New Client Confirmation** window.

2. FINDING A CLIENT IN CAREWARE

For all other service providers who are not authorized to add a new client into CAREWare log in to CAREWare. On the main screen, click **Find Client**.

The **Find Client** dialogue box will appear. There are multiple ways to search for a client. You can search by a full or partial **Last Name** or **First Name**. CAREWare will search for names that sound like the name you entered. You can search by the **Client ID**, **Unique ID**, **Client UCI**, or the **Ramsell Member ID**.

- ✎ The **Client ID** is defined as your agency's specific way of identifying a client – some agencies might use a chronological numeric scheme (1, 2, 3, 4...), some might use a second health record database number to assist in linkage (i.e. eClinicalWorks number, Sales Force number), and some might use a combination of letters and numbers based off of name and date of birth.
- ✎ The **Unique ID** is defined as the 1st and 3rd letter of the first name, 1st and 3rd letter of the last name, the birth day, a gender code, and a uniqueness variable.
 - John Cook, DOB: 01/02/1983, Male (JHCO0102831U)
 - If two clients have the same base URN, the system will ask you to assign a letter other than "U" to the end of the URN for both the new client and the existing matching client. So, for example, one client's URN would become JHCO0102831A and JHCO0102831B (for Johan Cione, DOB: 01/02/1983, Male)

- ✎ The **Client UCI** is also known as the Encrypted UCI that is required for the RSR data report. Since the RSR is a report on client level data, the way to submit this information without actual client identifiers is to have a unique encrypted ID number. The eUCI/UCI for the above example is C05BC2E2FE0D0113800E75783EB95956784F4DB5U.
- ✎ The **Ramsell Member ID** is the membership ID number that pharmacies use to process benefits.
- ✎ If you need any other search box – please contact CAREWareHelp@health.nv.gov for the request to add that.

The screenshot shows a 'Find Client' dialog box. At the top, it says 'Enter search criteria. Partial matches will be included.' Below this are five text input fields: 'Last Name:', 'First Name:', 'Client ID:', 'Unique ID', and 'Client UCI:'. To the right of these is a 'Ramsell Member ID' field. Below the 'Client UCI' field is a checkbox labeled 'View Active Clients Only' which is checked. To the right of the checkbox is a 'Maximum Results:' label followed by a text box containing '300'. At the bottom left is a 'Search' button, and at the bottom right is a 'Cancel' button.

If there are too many matches (> 1,000) a window will appear asking you to enter more information. If you are not able to narrow down which client you are looking for, contact the referring agency, eligibility provider, or the Nevada RWPB Program to obtain more identifying information.

3. ADDING DEMOGRAPHIC INFORMATION

Most fields in the **Demographics** screen are required for the Eligibility & Enrollment Provider to fill out. If you are entering a client for the first time, make sure all fields are complete. The **Demographics** screen looks like this:

The screenshot shows the 'Cook, John' Demographics screen. The top navigation bar includes tabs for Appointments, Orders, Forms, ChangeLog, Client Report, Duplicate Client, Delete Client, Find List, New Search, and Close. The main content area is divided into several sections: Personal Information (First Name: John, Middle Name: [blank], Last Name: Cook, Unique ID: JHCO0102834U, Encrypted URN: [blank]), Enrollment (Enrollment Status: Active, Enrollment Date: 6/5/2015, Eligibility Status: Ryan White Eligible, Vital Status: Alive, Case Closed Date: [blank]), HIV Status (HIV Status: HIV-positive (not AIDS), HIV+ Date: 1/1/2000, Est? [checked], AIDS Date: [blank], Est? [blank]), Address (Street Address: Homeless, City: Las Vegas, State: Nevada, Zip Code: 89101, County: Clark, Phone Number: 702-555-1234, Phone Type: Mobile), Race(s): White, Black or African American, American Indian or Alaska Native, Ethnicity: Hispanic, Hispanic Subgroup: Mexican, Mexican American, Chicar. The bottom right section contains Common Notes, Provider Notes, User Messages, and Case Notes, with a note dated 5/4/17: 'Office of HIV/AIDS : Test Note'.

1. **Name** – Only enter the client’s legal name, i.e. the name that is on their driver’s license or other legal ID card. Many people use an alias or prefer to be addressed using a nickname/chosen name, and this can be noted in the common notes section. See the Data Field Standards section for [Last](#), [First](#), and [Middle](#) Name guidance. Read Policy Guidance 15-23 for more information on Hispanic Surnames.

First Name: John Middle Name: James
Last Name: Cook

2. **Date of Birth** – enter the client’s legal Date of Birth. If it is estimated, check the box next to **Est?** [See the Data Field Standards section for Birth Date guidance.](#)

Date of Birth: 1/2/1983 Est? []

3. **Gender** – Select the most appropriate response from the drop down menu. Ask the client how they currently identify. This may or may not correspond with the gender on their ID or the sex on their birth certificate/medical records. [See the Data Field Standards section for Gender guidance.](#)

Gender:
Male
Female
Transgender Unk
Refused to Report
Unknown
Transgender MtF
Transgender FtM

Sex at Birth:
Male
Female

4. **Sex at Birth** – This is the sex that the client was assigned to at birth, for example, the sex that is on the client's birth certificate. This may or may not be the same as the client's gender. This field, in conjunction with the gender field, is the best method for identifying transgender clients. If a client receives a legal birth certificate change in their gender demarcation, then field can be changed, if a client's current sex demarcation is changed on their identification but not changed on their birth certificate then the Sex at Birth remains the same.

5. **Client ID** - This is an Agency Specific field. Each provider might number or index the client by a different unique identifier. The entry in this field will only been seen and searchable by your agency. It ought to be consistent.

Client ID:
0001

6. **Ramsell Benefits ID** – this is the client's benefits ID number that pharmacies use to process ADAP medication benefits.

RWPB Member ID No.
COOJO010283

7. **Address** – The client's current **physical** address must be entered. If the client is homeless; type Homeless in the Street Address field, enter the city, the zip code and the county where the client resides most of the time. You will be able to indicate the client is homeless in the Annual Review tab. The county field is used in several reports, so please be sure to enter this. **Ask the client if it is alright to mail**

Address | Mailing Address |

them at this address. If you click “Include on label report” then the client's physical address will be copied into the Mailing Address tab. If the client has a different mailing address that is not their physical address please indicate that in the second tab labeled “Mailing Address” section. [See the Data Field Standards section for Address guidance.](#)

8. **Phone Number** – Enter the phone number where you are most likely to reach the client. If the client does not have a phone number, leave this field blank. The phone number is to be entered as such: xxx-xxx-xxxx.

Address | Mailing Address |
Street:
Homeless
City: Las Vegas State: Nevada Zip Code: 89101
Alt. Phone 1: Phone Type: Alt. Phone 2: Phone Type:

Alternate phone numbers are to be entered into this second tab as well.

9. **Race** – Use the drop down to enter the client’s race. Multiple race categories can be checked. At least one option must be chosen. [See the Data Fields Standards section for Race, Ethnicity, and Subgroup guidance.](#)

If you select *Asian* and/or *Native Hawaiian or Other Pacific Islander*, you will be prompted to fill a National Origin subgroup. [See the Data Fields Standards section for Race, Ethnicity, and Subgroup guidance.](#)

10. **Ethnicity** – Use this drop down to select the client’s ethnicity.

If you select Hispanic, you will be prompted to select a Hispanic National Origin subgroup. [See the Data Fields Standards section for Race, Ethnicity, and Subgroup guidance.](#)

11. **Enrollment Status** – The default for Enrollment Status is “Active.” This means that the client is currently receiving services at your agency. If your client relocates or is no longer receiving services at your agency, change the enrollment status accordingly. The enrollment status is specific to each agency, so this will not change the enrollment status at another agency. [See the Data Fields Standards section for Enrollment Status guidance.](#)

12. **Enrollment Date** – The Enrollment Date is the date the client first started receiving services at your agency. The enrollment date is specific to your agency, and if you change it, it does not change

the enrollment date at another agency. The enrollment date cannot be after the first date of service at your agency.

- ✎ The Enrollment Date must be earlier than or equal to the first service you enter on the Service tab. If you do not enter an Enrollment Date, it will automatically be set to the date of the first service you enter for the client.

13. Case Close Date – If the Enrollment Status is not “Active,” you will need to enter a Case Closed Date.

14. Eligibility Status – This is a field has errors in the background coding of it. Please ignore this field and its contents. To check the true Eligibility Status of a client – please review the Start and End dates on the Eligibility & Enrollment Fields Tab.

15. Vital Status – The default value for the Vital Status is *Alive*. If *Alive* is not correct, choose the appropriate option from the drop down menu.

A screenshot of a software interface showing a dropdown menu labeled 'Vital Status:'. The menu is open, showing three options: 'Alive', 'Deceased', and 'Unknown'. 'Alive' is currently selected.

16. Date of Death – If “Deceased” is the Vital Status, you must enter a Date of Death.

A screenshot of a software interface showing a field labeled 'Date of Death:'. The field is empty.

17. HIV Status – Choose the best option from the drop down menu. HIV Status is a required field and must be entered. [See the Data Fields Standards section for HIV Status guidance.](#)

A screenshot of a software interface showing a dropdown menu labeled 'HIV Status:'. The menu is open, showing five options: 'HIV-positive (not AIDS)', 'HIV-positive (AIDS status unk)', 'CDC defined AIDS', 'HIV-negative (affected)', and 'HIV-indeterminate'. 'HIV-positive (not AIDS)' is currently selected.

18. HIV+ Date and AIDS Date – Your selection of HIV status will trigger red alert flags for HIV+ Date for HIV positive clients, and AIDS Date for CDC-defined AIDS clients. Enter a date if known; if it's a rough guess, enter a date and click the Est? (Estimated) box.

A screenshot of a software interface showing three fields: 'HIV Status:', 'HIV+ Date:', and 'AIDS Date:'. 'HIV Status:' is set to 'CDC defined AIDS'. 'HIV+ Date:' is set to '12/25/1999'. 'AIDS Date:' is empty. There are 'Est?' checkboxes next to each field, and a yellow warning triangle icon is visible next to the 'AIDS Date:' field.

19. HIV Risk Factor – Select the HIV risk factor(s) reported by the client. Choose all that apply. [See the Data Field Standards section for HIV Risk Factor guidance.](#)

A screenshot of a software interface showing a dropdown menu labeled 'HIV Risk Factors:'. The menu is open, showing a list of risk factors with checkboxes: 'Male who has sex with male(s)', 'Injecting Drug Use', 'Hemophilia/coagulation disorder', 'Heterosexual Contact', 'Perinatal Transmission', 'Receipt of transfusion of blood, blood components, or tissue', and 'Not Reported or Not Identified'. 'Male who has sex with male(s)' is currently selected.

4. ADDING NOTES

Common Notes are for general comments for all system users, usually as flags for client interactions. **Only include information that all providers need to know.** When entering a new common note, begin the note with the date, the name of your agency, and your first and last initials

Example:

5/21/2015 Silver Support Services – TKT: Do not leave voicemail messages

Do not call before 1:00 pm, works night shift

Remind client to check in with case manager

If a client has a **different physical home address** that is not their mailing address, please put that information in the first lines and keep that information in the first lines of the Common Notes.

Do **not** include the client's eligibility dates in the Common Notes Section.

Provider Notes function similarly but are specific to the provider, so they might include "Client does not want a referral to XYZ Agency" or other information a medical provider would not share with a social services provider, "Client is in treatment with Dr. Suarez for bipolar disorder." These notes can only be viewed and entered by CAREWare users within your provider domain. Each agency can establish its own protocol for the formatting and use of Provider Notes.

 Please enter notes in a chronological order with the most recent on top.

User Messages

User Messages allow users to send each other messages about this client, including messages from the Central Admin user to all users. These messages are flagged on the CAREWare “home page.” These messages are directly tied to the client, so general messages cannot be sent and messages to a group cannot be sent.

-  Do not send any state OHA staff user messages through CAREWare. Use the CAREWareHelp@health.nv.gov email address to ask that state staff call and troubleshoot any client specific question but do not email any client information to the email address, just ask for a call back.
-  Tip: copy and paste the client URN into the message body; we have noticed that there is a glitch within CAREWare that sometimes causes the Client URN field to be deleted upon sending a message.

Case Notes

Case notes can only be seen by each user within your domain but can be shared with another provider on a case-by-case basis. To enter a case note from the Demographics page, click **Case Notes**

Click **Add**, Enter the **Date**, select a Case Note **Author**, and then enter the text of the **Case Note**.

A screenshot of the 'Case Notes (Rapid Entry)' dialog box. At the top, there's a 'Client' field with 'Cook, John James' and date range selectors for 'From' (11/3/2014) and 'Through' (11/3/2015). Below these are buttons for 'Templates', 'Report', 'Sharing', and 'Close'. The main section has a 'Note:' label and a large text area containing 'Testing.'. To the right of the text area are fields for 'Date:' (11/3/2015) and 'Author:' (Taycher, Timothy), along with an 'Add Service' checkbox. A vertical stack of buttons (Save, Cancel, Paste Template, Spell Check, Thesaurus) is on the right side of the text area. At the bottom, there's a search bar and a table with columns 'Date', 'Provider', 'Case Note', and 'Author'. The table contains one entry: '11/3/2015', 'Nevada S...', 'Testing.', and 'Taycher, Timothy'. To the right of the table are buttons for 'Add', 'Edit', 'Append', and 'Delete'. The 'Add' button is highlighted with a red border.

Click **Spell Check** and use the **Thesaurus** if necessary, then click **Save**.

3. Ensure that the **Date** that is selected is the date of service, not the entry date. In the **Service Name** box select the name of the service that was delivered. There are full definitions and explanations of the Service Names in the Standards of Care for the Office of HIV/AIDS funded service categories.

4. The **Service Name**, **Contract**, **Unit**, **Price**, and **Cost** are specific to each provider and are setup by the State RWPB Program Office. If you notice that something does not look right with these fields, please contact OHA.

5. The default for the **Unit** is 1. If your service is being evaluated in hours, 1 unit is 15 minutes; if your service is being evaluated in sessions, 1 unit is 1 session; if your service is being evaluated in subsidies, the unit is 1 with the amount of the subsidy entered in the price box, 1 unit is equal to 1 month insurance.

6. The **Price** and **Costs** are default to \$0.00. Per unit costs have not yet been calculated by the OHA. Price/Cost for subsidies (housing, rent, insurance) are required to be entered.

5. Once you select a service name, additional fields will appear. Notice that there is an **Employee Name** field. Use the Employee Name dropdown field to select the name of the employee who provided the service and type in any **Service Notes** relating to the delivery of the service. Once you have completed all of the fields, click **Save** in the bottom of the right hand corner. Clicking **Print** will print this individual service.

6. ANNUAL REVIEW INFORMATION

Note: Only Eligibility & Enrollment Providers will have access to edit this screen. While the term is “Annual Review” it is a misnomer, this is the information that must be updated on a biannual basis.

When you click on the **Annual Review** tab, you will see 4 sub-tabs: **Annual**, **Annual RSR View**, **Annual Custom Fields**, and **Quarterly**. Eligibility information is entered in these tabs, and **only the agency that provided the eligibility appointment needs to enter this information**. But also, remember that Annual Review fields, like most demographic fields, are common or cross-provider. Values changed by one provider will be viewed—and can also be edited—by another provider only if that provider is allowed eligibility provisions via their subgrant.

The screenshot displays the 'Annual Review' screen for a client named 'Cook, John James'. The interface includes a top navigation bar with tabs like 'Appointments', 'Orders', 'Forms', 'ChangeLog', 'Client Report', 'Merge Client', 'Delete Client', 'Find List', 'New Search', and 'Close'. Below this is a secondary navigation bar with tabs for 'Demographics', 'Drug Services', 'Service', 'Annual Review', 'Encounters', 'Referrals', 'HIV C&T', 'Relations', 'Eligibility and Enrollment Fields', 'Custom Tab 2', and 'Custom T2'. The 'Annual Review' tab is active, showing sub-tabs for 'Annual', 'Annual RSR View', 'Annual Custom Fields', and 'Quarterly'. The 'Annual' sub-tab is selected, displaying a 'Summary Data as of' section with a date of 4/17/2016 and a 'Bring Forward' button. The 'Insurance' section shows 'Primary Insurance: No Insurance' and 'Other Insurance:'. The 'Federal Poverty Level' section shows 'Household Income: \$46,000' and 'Poverty Level: 391%'. The 'Annual Screening' section includes fields for 'HIV Primary Care', 'Housing Arrangement', 'HIV Risk Reduction Counseling', 'Mental Health', and 'Substance Abuse'. The 'Insurance' table lists dates and insurance types.

Date	Primary Insurance	Other Insurance
12/28/2015	No Insurance	
9/29/2015	Medicare Part A/B	Medicare Part D, Other (Hum
9/2/2015	Medicare Part A/B	
9/1/2015	Medicare Part A/B	Medicare Part D
3/1/2013	Medicare Part A/B	

1. The **Annual** tab is where you will enter all information at the annual and 6-month eligibility re-certification appointments.
2. The **Annual RSR** shows which values will be used in an RSR report for a given year. This information is pulled from the **Annual** tab and no information is entered in the **Annual RSR View**.
3. The **Annual Custom Fields** contain specific information on the other non-RWPB entitlement programs.
4. The **Quarterly** tab is outdated and is no longer used. Do NOT enter information in this tab.

Annual Tab

To enter data for each field in the **Annual** tab, hover your mouse towards the right side of the field and a box with a **plus** sign. Click on this to open a second **data entry screen** for the specific category.

- 📖 Eligibility information is saved for each calendar year. Eligibility information DOES NOT roll over automatically, so at the next eligibility or re-certification appointment, all information must be updated in the Annual Review tab.

Insurance

All Eligibility and Enrollment Specialists: From the Primary Insurance drop down, choose the appropriate insurance type. There are several options, so make sure to scroll down to view all of them. If the client has multiple types of insurance, determine which one is used most of the time, and select only this one from the drop down menu. Under the “Other Insurance” boxes, check all that apply to the client.

For example, if the client has a “Private-Individual” Marketplace Exchange plan and also has veterans status to receive medical services from the Veterans Health Administration, chose “Private-Individual” as the Primary Insurance from the drop down box and also check off “VA, Other Military” in the check boxes section.

For private insurance, there is the distinction between “Private – Individual” and “Private Employer”. If you are not sure what type of private insurance a person has, choose “Private – Individual” as the default. We do not expect you to go to unreasonable lengths to determine this.

If Ryan White Part B funds are used to purchase a client’s insurance through the marketplace then choose “Private – Individual”; if RWPB funds are used for copay assistance through an employer sponsored health plan choose “Private – Employer”; if a client is on ADAP services only and does not have insurance choose “No Insurance.” [See Data Field Standards section for guidance on Insurance options.](#)

The screenshot shows the CAREWare software interface for a client named Cook, John James. The main window has a menu bar with options like Appointments, Orders, Forms, ChangeLog, Client Report, Duplicate Client, Delete Client, Find List, New Search, and Close. Below the menu bar, there are tabs for Demographics, Drug Services, Service, Annual Review, Encounters, Referrals, HIV C&T, Relations, Eligibility and Enrollment Fields, Custom Tab 2, and Custom Tab 3. The main content area is divided into sections: Summary Data as of 7/11/2016, Insurance, Federal Poverty Level, Annual Screening, and Substance Abuse. The Insurance section shows Primary Insurance: Private - Individual and Other Insurance: VA, Tricare and other military health... The Federal Poverty Level section shows Household Income: \$46,000 and Poverty Level: 391%. The Annual Screening section shows HIV Primary Care, Housing Arrangement, HIV Risk Reduction Counseling, Mental Health, and Substance Abuse. The Insurance Assessment window is open, showing Primary Insurance: Private - Individual, Date: 7/11/2016, and Other Insurance checkboxes: Private - Individual (checked), Private - Employer, Medicare Part A/B, Medicare Part D, Medicare (Part unspecified), Medicaid, VA, Other Military (checked), Full LIS, IHS, Other, and High Risk Insurance Pool. The window has Save and Cancel buttons.

All Eligibility and Enrollment Specialists: If the client is requesting assistance from RWPB ADAP, e.g. health insurance premium and/or medication copay assistance, Form 16-10 Survey of Insurance Coverage Verification Form must be completed and attached to the [Internal Referral](#) to Access to Healthcare Network (this is in addition to including Form 16-10 in the enrollment packet).

 Access to Healthcare Network will complete Form 15-38, ADAP Cost Effectiveness Worksheet, to determine the appropriate ADAP Program in which to enroll the client.

Access to Healthcare Network (AHN): Once the insurance type has been completed on the [Annual](#) tab, detailed insurance information will need to be added by **AHN** to the Insurance Data Review Form on the **Forms** tab. Click on the **Forms** tab at the top of the page to open a new screen. Client insurance information is **required** to be updated on the Insurance Data Review Form.

Below this, a secondary bar contains various service categories like Demographics, Drug Services, Service, Annual Review, Encounters, Referrals, HIV C&T, Relations, Eligibility and Enrollment Fields, Custom Tab 2, and Custom T2. The main content area is divided into several sections. On the left, the 'Summary Data as of' section shows the date 4/17/2016 and a 'Bring Forward' button. Below this, the 'Insurance' section indicates 'Primary Insurance: No Insurance' and 'Other Insurance:'. The 'Federal Poverty Level' section shows a date of 8/20/2015, a household income of \$46,000, a household size of 1, and a poverty level of 391%. A plus sign is visible next to the date. The 'Annual Screening' section lists various services with their respective dates: HIV Primary Care (8/20/2015), Publicly-funded clinic or health dept., Housing Arrangement (8/20/2015), Stable/Permanent, HIV Risk Reduction Counseling, Mental Health, and Substance Abuse. On the right, the 'Federal Poverty Level' table lists two entries: 8/20/2015 with a household income of \$46,000 and a household size of 1, and 7/9/2015 with a household income of \$46,000 and a household size of 1. A 'Poverty Level Assessment' dialog box is open, showing fields for Household Income, Date (4/17/2016), Household Size, and Poverty Level (0%). The dialog box has 'Save' and 'Cancel' buttons.

Historical Information

As you enter annual review data over time for this client, the historical information will be available on the right side of the screen. When you hover your mouse over one of the categories on the left side (i.e., Insurance, Federal Poverty Level, or Annual Screening), the associated historical information will appear on the right.

In order to make changes, you can highlight an entry on the right side and click Edit to change the information or Delete if the information was entered in error.

Bringing Forward Annual Review Data

Much of the data on the Annual Review tab may stay the same from one six-month period to another. CAREWare contains a feature that will “roll over” these data from one period to the next.

Please note that as you view the Annual Review tab, a date will appear in red if the associated data are more than a year old. When that is the case, the name of the Annual Review tab will also appear with an asterisk (*) as seen in the screen shot below. Once the data have been updated, the asterisk will disappear and the dates will all be in green.

To roll over previous data that are still accurate, click the **Bring Forward** button at the top of the tab.

You will be given the option to bring forward the information related to **Insurance**, **Federal Poverty Level**, **HIV Primary Care**, and **Housing Arrangement**. Check the box next to the categories for which there is no change in information. The **Assessment Date** will automatically default to today’s date, but you can change it to an earlier date. Click **Save**.

The information you selected will be carried forward with the new assessment date.

The screenshot shows the CAREWare Annual Review tab for a client named Cook, John James. The 'Summary Data as of' date is 4/17/2016, and the 'Bring Forward' button is highlighted. The 'Annual Screening' section shows data for Insurance, Federal Poverty Level, HIV Primary Care, and Housing Arrangement, all with dates in red (indicating they are more than a year old). A dialog box is open, allowing the user to select which categories to bring forward. The 'Assessment Date' is set to 4/17/2016. The dialog box contains checkboxes for each category, and the 'Save' button is highlighted.

Annual Screenings for Outpatient Ambulatory Medical Clients Only

There are three areas under Annual Screenings that **only apply to providers who are funded to deliver Outpatient Ambulatory Medical Care**. Agencies that are funded to provide other services do not need to complete these sections. The responses to these sections as reported by primary care providers or eligibility & enrollment providers with verifiable data will be visible to all CAREWare users at providers that serve the client.

HIV Risk Reduction Counseling

Indicate whether the client received risk reduction screening and/or counseling during the current calendar year reporting period. HIV risk reduction screening and counseling refers to a short questionnaire administered to identify patients at risk for HIV infection or re-infection, followed by counseling about ways to reduce their risk.

The response options available in the **Result** pull down menu are:

- Yes
- No

If you select **Yes** under **Result**, also select the appropriate response from the **Counseled by** pull down menu. The response options are:

- *Primary Care Clinician*
- *Case Manager/Social Worker*
- *Other Trained Counselor*
- *Unknown*

Select *Primary care clinician* only if the following definition is met: A short questionnaire was administered by a clinician to identify a patient at risk for HIV re-infection or transmission, and the clinician counseled the patient about ways to reduce their risk.

A screenshot of a software form titled "Annual Screening:". The form has a light blue background and a thin border. It contains four fields, each with a label and a dropdown arrow: "Date:" with the value "5/21/2015", "Type:" with the value "HIV Risk Reduction Counseling", "Result:" which is empty, and "Counseled by:" which is empty. At the bottom of the form are two buttons: "Save" and "Cancel".

Mental Health Screening

Indicate whether the client was screened for mental health issues during the current calendar year reporting period. Mental health screenings include the use of brief structured instruments or commonly used questions to assess potential mental health problems. Screenings are designed to determine whether the client presents signs or symptoms of a mental health problem and if the client should be referred to a mental health professional. Screens are not diagnostic tools and, although typically administered by a mental health professional, may be administered by trained health care professionals in other medical/clinical disciplines.

The screenshot shows a software window titled "Annual Screening :". It contains three fields: "Date" with a dropdown menu showing "5/21/2015", "Type" with a dropdown menu showing "Mental Health", and "Result" with an empty dropdown menu. At the bottom right are "Save" and "Cancel" buttons.

The response options available in the Result pull down menu are:

- No
- Yes
- Not medically indicated
- Unknown

Substance Abuse

Although this section is called substance "abuse" in CAREWare, the question asked in the RSR is whether the client was screened for substance "use" (alcohol and drugs) during the current calendar year reporting period. Substance use screening is a quick, simple way to identify clients who may need further assessment or treatment for substance use disorders. Screening may include biomarkers (e.g., positive drug screen or liver disease) and client reports of consumption patterns.

The screenshot shows a software window titled "Annual Screening :". It contains three fields: "Date" with a dropdown menu showing "5/21/2015", "Type" with a dropdown menu showing "Substance Abuse", and "Result" with an empty dropdown menu. At the bottom right are "Save" and "Cancel" buttons.

The response options available in the Result pull down menu are:

- No
- Yes
- Not medically indicated

Annual Custom Tab

The **Annual Custom Fields** subtab contains specific information on the **enrollment information for other forms of insurance**. This tab is to be edited only by the provider of Health Insurance Premium Assistance, Co-Pay Assistance, and ADAP Prescription Drug Assistance – currently Access to Healthcare Network.

Current Ryan White ABCD Eligibility Start and End Dates as well as the **Eligibility Pending** and **Part B Eligibility Pending Items** are in the **Eligibility and Enrollment Fields** tab. Historical RWPB eligibility dates will be located in the **Subform** tab NOT in the **Common Notes** field in the **Demographics** tab. See [Subsection 11. Subform and Historical RWPB Eligibility Dates](#).

The screenshot shows the 'Annual Custom Fields' subtab for a client named 'Cook, John'. The interface includes a top navigation bar with tabs like 'Appointments', 'Orders', 'Forms', 'ChangeLog', 'Client Report', 'Duplicate Client', 'Delete Client', 'Find List', 'New Search', and 'Close'. Below this is a secondary navigation bar with tabs for 'Demographics', 'Drug Services', 'Service', 'Annual Review', 'Encounters', 'Referrals', 'HIV C&T', 'Relations', 'Eligibility and Enrollment Fields', 'Custom Tab 2', and 'Custom Tab 3'. The 'Annual Custom Fields' subtab is selected, showing a form with various fields for insurance information. The 'Annual Year' is set to 2017. The form includes sections for ADAP Program Type, Medicaid Number, Insurance ID No., Health Insurance Plan Type, Medicare HMO/PPO Enrollment, Medicare HMO/PPO Member ID Number, Medicare Part D Start Date, and Medicare Part D End Date. Each section contains dropdown menus and text input fields for specific data points.

The better way for Access to Healthcare Network to enter the information upon doing their insurance assessment is to go into the Forms and utilize the **Insurance Data Review Form**. It is required that this form is generated if there is any known/reported change in the client's insurance status.

If there is any information that you believe will be helpful for all providers to be able to have access to, please email CAREWareHelp@health.nv.gov the suggestions.

7. ADDING ENCOUNTERS

The Encounters tab contains sub-tabs for entering Medications, Labs, Screening Labs, and Screenings among other items. Some fields within these tabs are required by HRSA, however, most of what is entered in the Encounters tab depends largely on your agency. Please refer to the Ryan White Service Report Manual and the ADAP Data Report Manual, latest editions, for the required elements. Entry into this tab is for only clinical providers and Eligibility & Enrollment providers.

The screenshot displays the 'Cook, John James' patient record in the 'Encounters' tab. The interface includes a top navigation bar with tabs for 'Appointments', 'Orders', 'Forms', 'ChangeLog', 'Client Report', 'Merge Client', and 'Delete Client'. Below this is a secondary bar with 'Find List', 'New Search', and 'Close' buttons. The main content area shows the 'Encounters' sub-tab selected, with options for 'Demographics', 'Drug Services', 'Service', 'Annual Review', 'Referrals', 'HIV C&T', 'Relations', 'Eligibility and Enrollment Fields', 'Custom Tab 2', and 'Custom T2'. The 'Encounter Date' is set to '04/17/2016' with an 'Access' dropdown. Action buttons include 'Create Encounter', 'Delete Encounter', 'Encounter Report', and 'Sharing Options'. A checkbox 'Only show data for this provider' is checked. The 'Vital Signs' sub-tab is active, showing a 'Values are in:' dropdown set to 'English' (with 'Metric' as an option) and a 'Rapid Entry' button. Below this is a table for recording vital signs:

	Prior Value:	Date Taken:	Current Value:	Current Value Provider:
Height(inches)				
Weight(lbs)				
Pulse (bpm)				
Temperature(F)				
B.P. Sys/Dia:				

Below the table, there is a 'Pregnant?' section with checkboxes for 'Last visit' and 'Currently', and a 'View/Edit History' button.

Medications Tab

The medications tab is used to enter medications that staff at your agency prescribes to the client. This means that only a few of the Ryan White providers enter data in this tab.

To enter information on medications, click the **Create Encounter** button. The **Encounter Date** window will open, the default **Date** is today's date, select the date that the client had their new or recertification enrollment appointment. Click **Create Encounter**.

8. REFERRALS (OUTGOING AND INCOMING)

Referrals are an essential component of the Ryan White HIV/AIDS Program care network. There are a number of services within the State of Nevada, and it is important that clients are referred to services at other agencies using standard protocols so that they can access the service in a timely manner. Referrals allow for an agency to confirm the eligibility of a new client and also allow the referring case manager to see if the client did follow-up and access the service. Documents can also be scanned into CAREWare under the Referrals document tab, eliminating the need for faxes. Consult with each agency to determine which documents are needed to complete the referral. The State RWPB office also monitors the number of referrals made and completed by each agency on a monthly basis, so it is important to be thoughtful in making referrals that the client actually needs and will use.

-  Referrals are to be completed within the CAREWare database. Faxes and other communications alone are no longer an accepted way to send, receive, and track referrals.
-  There are two types of referrals within CAREWare: internal and external.
 -  Internal Referrals are made between providers within the Ryan White Part B provider network via CAREWare electronic transmittal and upload of scanned referral documents.
 -  External referrals are referrals made to non-Ryan White Part B funded agencies and programs and are the responsibility of the referring provider to track and resolve.
-  Ryan White Part B funded agencies are only required to enter in CAREWare internal referrals.
-  Ryan White Part A – Las Vegas Transitional Grant Area uses the same referral policy and procedure as Ryan White Part B but referrals from and to Part A from a Part B provider are considered an External Referral.

Provider Initiating Internal Referrals

It is the responsibility of the referring provider to check client's Ryan White Part B eligibility prior to making any referral. Referring providers are to complete all the required data fields in the CAREWare **Referrals** tab

The following fields must be completed in the **Referrals** tab for all internal referrals:

- ☐ Referral Date
- ☐ Type (Internal)
- ☐ Refer-To Provider
- ☐ Request Service Category Type
- ☐ Referral Class (Only select the appropriate option if the referral is made to an Eligibility & Enrollment Provider for a new client or for a recertification appointment)
- ☐ Comments from employee making referral
- ☐ Name of employee making referral
- ☐ Attachment of Referral Documents

The referring provider must ensure the specific purpose of the referral is clear. Incomplete or inappropriate referrals may be rejected at the discretion of the provider receiving the referral. Internal referrals must be documented in CAREWare within five days of the client encounter. Any referrals documented in CAREWare more than five days from the client encounter must be pre-approved by the OHA.

1. Prepare the scanned referral document packet. Only referral-related documents should be scanned and uploaded to the **Referrals** tab. Ensure that the documents are current and within five days of the client encounter. Please consult the agency that you are referring to for information on their required referral documents.
2. When scanning, all pages must be face up and face the same direction. Make sure that any documents with small print, such as ID or insurance cards, are enlarged so that the text is legible.
3. Scan all referral documents as one PDF file. CAREWare can only accept PDF files. Clearly label the file with the contents of the file (do not just type "referral").
Each scanning and computer system is different. If you have questions on how to scan to your computer, consult with your agency's IT staff.
4. When you are ready to initiate the referral and upload your file to CAREWare go the **Referrals** tab in the Client's record and click the **Add Referral** link.

6. Once you select the **Requested Service Category Type**, the remaining fields will appear.

- 8. Only the Completing Agency can complete the **Referral Status** and **Referral Complete Date** fields.
- 8. Do not fill out any comments in the **Referral Comments** field. That section does not provide adequate space to easily write and review comments.
- 7. Type your name as the employee at the agency completing the referral for the client in the **Name of Staff Initiating Referral** field and type in any additional notes or comments in the **Comments from Initiating Agency** regarding this referral.
- 8. Leave the **Comments from Completing Agency** fields blank as those are to be completed by the Refer-To Provider.
- 9. Scroll down to the bottom of this section and click the **Referral Documents** link if there are any documents to attach. The **Emergency Referral** button is for an initiating agency to flag to the receiving agency that this referral ought to take some sort of priority. All referrals must be completed within 30 calendar days, Emergency Referrals must be completed within five calendar days. This ought to only be used in true emergencies.

10. The **Attachment List Manager** window will appear. Click **Attach New File(s)**. This will bring up a screen that will allow you to browse your computer for the file that you wish you attach. Select the file you would like to upload and click **Open**.

11. The **Attachment Properties** window will open.
Choose the appropriate **Content Type** (the name of the agency that you are referring to) and type in any **Comments** that might be appropriate. Do not type service notes or case notes into this field, as this field only pertains to the attachment. Then click **Save**.

The **Attachment Properties** window contains the following fields:

- File Name:** Policy-Advocacy-Toolkit-September-2014.pdf
- Content Type:** A dropdown menu with a downward arrow, highlighted with a green box.
- Comments:** A large text area for entering comments.
- Save:** A button at the bottom right, highlighted with a red box.

12. You will then see the **Attachment Upload Status** screen. Click **Upload Files**.

13. When it is done uploading you will see the **Attachment List Manager** screen again with the attachment listed in the right hand side.

The **Attachment Upload Status** window displays the following information:

- Processing:** A progress bar.
- Files to Process:** A table with one entry:

File Name

- ⌘ Make sure that the referral documents packet uploaded correctly. Open the referral documents packet from CAREWare to ensure that the file is complete, legible, and has not been corrupted. Select the file you would like to view and click **F4 – View Attachment(s)**.
- ⌘ The Attachment will open in another window in Adobe Reader. From the Adobe Reader window, you can save or print the document.
- ⌘ The OHA is not responsible for information lost due to errors in document scanning and/or uploading. OHA recommends that scanned documents are kept in a folder on the Provider's computer network until a backup of the document is made and all uploading is complete.
- ⌘ Lost documents are not the responsibility of the OHA.
- ⌘ Keep scanned documents in a secure folder on your network and do not leave client documents on scanning devices. It is the responsibility of each Provider to maintain the security and confidentiality of their client files. Compromises in client information are not the responsibility of the Grantee.
- ⌘ Uploaded documents can only be deleted by the Grantee's office. If a document is uploaded in error, please contact OHA to delete.
- ⌘ Any destruction or shredding of documents is to be based on each Provider's policies and procedures, and will not be the responsibility of the Grantee. Consult your agency's policy before disposing of any client documents.

Provider Completing Internal Referrals

It is the responsibility of all providers receiving referrals to address all incoming internal CAREWare referrals in a timely manner. **Incoming Internal Referrals** can be found in the **System Messages** section on the right-hand side of the **Main Menu** screen. Providers completing/receiving referrals must verify client's Ryan White Part B eligibility prior to completing all referrals. Clients shall be contacted by provider completing referral within 5 business days of receiving all necessary referral documents. Clients shall receive an appointment with the receiving agency within 30 days of being contacted.

Providers receiving internal referrals can navigate to the **Referrals** tab and select the appropriate **incoming referral** and then click **Edit Referral**.

 Providers marking incomplete or inappropriate referrals as “Rejected” must indicate Name of employee completing referral and clearly state reason for rejecting referral in the Comments from employee completing referral field.

- ▣ All internal referrals should be resolved, e.g., Referral Status changed to “Completed, Lost to follow up, or Rejected,” within 30 days. A minimum of three attempts must be made to contact client prior to changing the Referral Status to “Lost to follow up.”

Provider Initiating External Referrals

External referrals made to non-Ryan White Part B providers must be tracked/resolved by the agency making the referral. As with internal referrals, providers have 30 days to mark outgoing external referrals as complete. They do not send any communications to other providers and can only be viewed by your agency.

1. Access the Client's record and verify **RWPB Eligibility** in the **Eligibility and Enrollment Fields** tab. If the Client is not currently eligible for RWPB Services then proceed to make a referral only to an Eligibility & Enrollment Provider. No other referral can be made if a client is currently not current on their eligibility.

9. ELIGIBILITY & ENROLLMENT FIELDS

To ensure that all data elements contained in the common RWHAP All Parts Application are located in CAREWare, the **Eligibility and Enrollment Fields** tab was created for the Eligibility and Enrollment Providers to complete on a biannual basis. Please review the [Data Field Standards for this tab in Appendix I](#).

The screenshot shows the 'Eligibility and Enrollment Fields' tab for a client named 'Cook, John'. The interface includes a top navigation bar with tabs like 'Appointments', 'Orders', 'Forms', 'ChangeLog', 'Client Report', 'Duplicate Client', 'Delete Client', 'Find List', 'New Search', and 'Close'. Below this is a secondary navigation bar with tabs for 'Demographics', 'Drug Services', 'Service', 'Annual Review', 'Encounters', 'Referrals', 'HIV C&T', 'Relations', 'Eligibility and Enrollment Fields' (which is highlighted with a red box), 'Custom Tab 2', and 'Custom Tab 3'. The main form area contains several sections: 'Current Eligibility Start Date' (2/29/2016) and 'Current Eligibility End Date' (11/1/2016); 'Emergency Contact Name and Information' (Scooby Doo, 775-684-4247, Knows about Diagnosis); 'SSN or TIN' (No SSN), 'Preferred Name/Pronouns', 'Preferred Language' (Spanish), 'Alternate Phone Number', and 'Alt. Phone Type'; 'E-mail Address' (Capricorn_JJC@gmail.com) with checkboxes for confidentiality and contact preferences; 'Relationship Status' (Unmarried Couple), 'Education Level' (Some College), 'Veteran Status' (unchecked), 'Eligibility Agency' (AHF - Internal Referral), and 'Most Recent Eligibility Specialist' (Joshua Benitez); 'Eligibility Is Pending' (checked); 'Enrollment Pending Notes'; and a bottom section with checkboxes for 'Proof of HIV Diagnosis in Packet', 'Current Lab Work in Packet', 'Proof of Identification in Packet', and 'Existing Insurance Coverage in Packet'.

These fields are mandatory to be filled out as they constitute a complete application. The fields completed here appear on the Client Report which is discussed in the [Attaching Eligibility Documents](#) section and the [Generating the RWHAP Application](#) section. To understand the correlation between the RWHAP All Parts Application and the screens in CAREWare see [Appendix III: Application Correlation to CAREWare](#).

10. ATTACHING ELIGIBILITY DOCUMENTS

As part of eligibility, all eligibility documents are scanned into CAREWare. This allows other case managers and eligibility specialists to view the documents, which can help in coordinating the processing of pending eligibility documents and eligibility for other programs.

1. Only eligibility-related documents should be uploaded and scanned. (See CGD 15-55 for the required documents and order of documents to be scanned into CAREWare)
2. When scanning, all pages must be face up and face the same direction. Some documents such as bank statements and lease agreements tend to be quite lengthy. It is not necessary to include every page, only the pages that contain information relevant to eligibility, such as first page and signature page for lease agreements and the deposits page for bank statements.
3. Scan all eligibility documents as one PDF file.
 - a. For the annual eligibility appointment, label this document with the clients name (LastFirst), then as “**Annual**” with the date of the eligibility appointment, NOT the date you scanned the document. For example: **CookJohn_Annual_06-05-15**.
 - b. If it is the six month recertification, label the document as “**Recertification**” with the date of the recertification appointment (i.e., **CookJohn_Recertification_12-05-15**).
4. If a client does not have all of their documents at their appointment, scan what is available and label it as Annual or Recertification. When the remainder of the documents are presented, scan and label the file under the same convention with the date of the original eligibility appointment, so that it is clear with which appointment the document corresponds.

5. When you are ready to upload your file to CAREWare, go to the **Eligibility & Enrollment Fields** tab. **Scroll down** to the bottom of this screen and click **File Attachment** to open up the **Attachment List Manager** window.

- ✎ Any destruction or shredding of documents is to be based on each Provider’s policies and procedures, and will not be the responsibility of the Grantee. Consult your agency’s policy before disposing of any client documents.

11. SUBFORM AND HISTORICAL RWPB ELIGIBILITY DATES

It is very helpful for providers to know the historical RWPB eligibility status of clients as they do their daily service delivery. If a provider sees that a client is regular or irregular in their RWPB Eligibility and Enrollment recertifications then that would be an opportunity to personalize service delivery.

Historical RWPB Eligibility Data will be located in the **Subform** tab and **Historical RWPB Eligibility Dates** subtab.

12. DELETING OR MERGING A CLIENT

CAREWare users will not have the permissions necessary to delete a client. If you believe that a client record was entered in your provider domain in error, please contact the Nevada OHA. Do NOT include the client name in the email; only include the URN/Unique ID in the email.

Appendix I: Data Field Standards

LAST NAME

Enter the legal last name of the client.

- ✎ Capitalize the first letter of the last name. If the last name is made up of two names (e.g. Hanson Pérez), capitalize the first letter of each name. Do not capitalize the whole last name.
- ✎ Do not use hyphens, accents (e.g., á, é), tildes (e.g., ñ, õ), or other symbols (e.g., ü, ß, ç) in the last name.
- ✎ Do not use spaces in the last name, except when using suffixes like Jr. or III. Do not use periods after suffixes like Jr. and Sr.
- ✎ If the client does not have a last name, use Nln as the designation for “No last name”
- ✎ Read Policy Guidance 15-23 for more information on Hispanic Surnames

GENDER

When adding a new client, you must enter a gender in CAREWare. The drop down list shows several options for the field. Indicate the client's gender (the socially and psychologically constructed, understood, and interpreted set of characteristics that describe the current sexual identity of an individual) based on his or her self-report. The following options are available in CAREWare:

- ☐ Male - An individual with strong and persistent identification with the male sex.
- ☐ Female - An individual with strong and persistent identification with the female sex.
- ✎ *Transgender - An individual whose gender identity is not congruent with his or her biological gender, regardless of the status of surgical and hormonal gender reassignment processes. Sometimes the term is used as an umbrella term encompassing transsexuals, transvestites, cross-dressers, and others. The term transgender refers to a continuum of gender expressions, identities, and roles, which expand the current dominant cultural values of what it means to be male or female.*
- ☐ Transgender MtF – Transgender Male to Female / Transgender Female / Transwoman
- ☐ Transgender FtM – Transgender Female to Male / Transgender Male / Transman
- ☐ Transgender Unknown – This category is treated in CAREWare as the umbrella term for all other gender identifications. This includes, but is not limited to Agender, Androgynous, Gender Diverse, Gender Fluid, Genderfuck, Genderqueer, etc.
- ☐ Refused to Report – Client refused to report their gender
- ☐ Unknown – Client's gender is unknown

BIRTH DATE

Enter the date of birth as identified by the client in the mm/dd/yyyy format. If the client's actual date of birth is unknown and the client does not have a standard date of birth they use on driver's license, passport, etc., then:

- ✎ If the month is unknown, report as "01"

- 📌 If the day is unknown, report as “01”
- 📌 Provide the client’s best guess for their year of birth. “9999” or any variation is not a valid response for year.
- 📌 Select “Estimated Year of Birth”

ADDRESS

To ensure accurate data entry of a client’s mailing address please follow this guidance.

Street Address

- 📌 The Delivery Address Line should be [complete and standardized as defined by the United States Postal Service](#). USPS requires all capitalized letters but to maintain consistency with the rest of the data elements within CAREWare the capitalization should follow the correct casing.

- ✎ There is no option or *Other* or *Unknown*.
- ✎ Race and Ethnicity Categories were determined by the [Federal Office of Management and Budget \(October 30, 1997\)](#)
- ☐ *American Indian or Alaska Native*—A person having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment.
 - ☐ *Asian*—A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam. If a client identifies as Asian, choose all Asian subgroups that apply in the Asian Subgroup field.
 - ☐ *Black or African American*—A person having origins in any of the black racial groups of Africa.
 - ☐ *Native Hawaiian or Other Pacific Islander*—A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands. If a client identifies as Native Hawaiian/Pacific Islander, choose all Native Hawaiian/Pacific Islander subgroups that apply in the Native Hawaiian or Other Pacific Islander Subgroup field.
 - ☐ *White*—A person having origins in any of the original peoples of Europe, the Middle East, or North Africa.

Ethnicity is determined by the client's self-report

- ✎ Clients must choose only one option.
- ☐ *Hispanic, Latino/a, or Spanish origin* — A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race. The term "Spanish origin" can be synonymous with "Hispanic or Latino." If a client identifies as Hispanic, Latino/a, or Spanish origin, choose all Hispanic subgroups that apply in the Hispanic Subgroup field.

- *Non-Hispanic, Latino/a, or Spanish origin* — A person who does not identify his or her ethnicity as “Hispanic or Latino.”

If the client identifies as **Hispanic, Latino/a, or Spanish Origin**, you are also required to report one or more of the following Hispanic subgroups based on how the clients self-identifies their country of origin or their descent:

- ☐ *Mexican, Mexican American, Chicano/a* - Person born in Mexico or of Mexican descent
- ☐ *Puerto Rican* - Person born in Puerto Rico or of Puerto Rican descent
- ☐ *Cuban* – Person born in Cuba or of Cuban descent
- ☐ *Other Hispanic, Latino/a, or Spanish origin* - Person born in another Hispanic/Latino country or of other Hispanic/Latino descent

If the client identifies as **Asian**, you are also required to report one or more of the following Asian subgroups, based on how the clients self-identifies their country of origin or their descent:

- ☐ *Asian Indian* - Person born in India, Pakistan, or Bangladesh or of Asian Indian descent
- ☐ *Chinese* - Person born in China or of Chinese descent
- ☐ *Filipino* - Person born in the Philippines or of Filipino descent
- ☐ *Japanese* - Person born in Japan or of Japanese descent
- ☐ *Korean* - Person born in Korea or of Korean descent
- ☐ *Vietnamese* - Person born in Vietnam or of Vietnamese descent
- ☐ *Other Asian* - Person born in another Asian country or of other Asian descent

If the client identifies as **Pacific Islander**, you are also required to report one or more of the following Pacific Islander subgroups, based on how the clients self-identifies their country of origin or descent:

- ☐ *Native Hawaiian* - Person born in Hawaii or of Native Hawaiian heritage.
- ☐ *Guamanian or Chamorro* - Person born in Guam or the Marianas Islands or of Guamanian or Chamorran descent.
- ☐ *Samoa* - Person born in Samoa or of Samoan descent
- ☐ *Other Pacific Islander* - Person born in another Pacific Island or of other Pacific Islander descent

ENROLLMENT STATUS

The Enrollment Status field refers to the client’s enrollment status at your agency only. Please be aware that if a client is closed in one program but is still receiving services through another program within your agency, the status should be ‘Active.’

Select one of the following:

- *Active* - Client continues to receive at least one service at your agency
- *Referred or Discharged* - Client was referred to another agency AND is no longer receiving services at your agency. Also select this response if client was discharged from your agency because they became self-sufficient and no longer needed Ryan White-funded

services, client voluntarily leaves your agency, client is lost to follow-up, or client refuses to participate.

- *Removed* - Client was removed from your agency's services due to violation of your agency's rules.
- *Incarcerated* - Client will not continue in services because they are serving a sentence in a federal, state, or local penitentiary, prison, jail, reformatory, work house or other correctional facility. If the client is incarcerated and will continue to receive services from your agency, select Active.
- *Relocated* - Client moved out of the agency's service area and will not continue to receive Ryan White services at your agency. **This is also the option to be used if a client is deceased.**

Active is the default value for this field. Be sure to change this if the client is no longer active at your agency.

- ℞ CAREWare no longer offers *Inactive/Closed* and *Unknown* as response options for Enrollment Status.

HIV STATUS

This data element is the client's HIV/AIDS status at the end of the reporting period. For HIV-affected clients for whom HIV/AIDS status is not known, leave this value blank. The response categories for this element are:

- *HIV-negative (affected)* — Client has tested negative for HIV, is an affected partner or family member of an individual who is HIV positive, and has received at least one RWHAP-funded support service during the reporting period.
- *HIV-positive, not AIDS* — Client has been diagnosed with HIV but has not been diagnosed with AIDS.
- *HIV-positive, AIDS status unknown* — Client has been diagnosed with HIV. It is not known whether the client has been diagnosed with AIDS.
- *CDC-defined AIDS* — Client is an HIV-infected individual who meets the CDC AIDS case definition for an adult or child. NOTE: Once a client has been diagnosed with AIDS, he or she always is counted in the CDC-defined AIDS category regardless of changes in CD4 counts. For additional information, see: <http://www.cdc.gov/hiv/topics/surveillance/resources/guidelines/index.htm>
- *HIV-indeterminate (infants <2 years only)* — A child under the age of 2 whose HIV status is not yet determined but was born to an HIV-infected mother.

- ℞ AIDS is the most severe manifestation of infection with HIV. CDC lists numerous opportunistic infections and cancers that, in the presence of HIV infection constitute an AIDS diagnosis.

- ℞ AIDS defining conditions include: pneumocystis carinii pneumonia (PCP), Mycobacterium avium complex (MAC), Mycobacterium tuberculosis, cytomegalovirus disease, toxoplasmosis, cervical cancer, and others. See <http://aidsinfo.nih.gov> for more information on AIDS diagnosis, opportunistic infections, and cell counts.

- 📖 If the client self-reports a history of any AIDS defining condition (see box on AIDS definition), the HIV Status should be entered as “CDC defined AIDS.”
- 📖 If the client self-reports or provides medical documentation (e.g. lab reports) of an HIV Status of “CDC defined AIDS,” enter the HIV Status as such.
 - HIV+ Date: Enter the date the client was identified as HIV+. This date may be a client’s estimate. For example, if a client says “sometime in the middle of ‘86”, enter “06/01/1986”. If the date is an estimate, check the “Est?” box
 - AIDS Date: Enter the date the client was diagnosed with AIDS. Verification of the AIDS diagnosis should be made through the CDC-defined criteria for AIDS. Refer to the case management standards for additional guidance.

HIV RISK FACTORS

Check all the boxes that apply for HIV Risk Factors (modes of HIV transmission to the client.) These entries may be based on client self-report and/or the case manager’s professional assessment. If you have a question about a mode of transmission that does not appear to fit in the categories, contact the Nevada Office of HIV/AIDS for guidance.

- ☐ Men who have sex with men (MSM) cases include men who report sexual contact with other men (i.e., homosexual contact) and men who report sexual contact with both men and women (i.e., bisexual contact). For Transgender individuals who were assigned Male at birth – this category is reported as Sexual Contact **NOT MSM**.
- ☐ Intravenous drug use (IDU) cases whose transmission category is classified as injection drug use are persons who received an injection, either self-administered or given by another person, of a drug that was not prescribed by a physician for this person. The drug itself is not the source of the HIV infection, but rather the sharing of syringes or other injection equipment (e.g., cookers and cottons), which can result in transmission of blood borne pathogens, such as HIV.
- ☐ Hemophilia/coagulation disorder cases include clients with delayed clotting of the blood who used a blood product for treatment of the overlying blood disorder including, but not limited to Factor VIII or Factor IX.
- ☐ Heterosexual contact cases include clients who report specific heterosexual contact with an individual with, or at increased risk for, HIV infection (e.g., a person who uses injection drugs).
- ☐ Receipt of transfusion of blood, blood components, or tissue cases include transmission through receipt of infected blood or tissue products given for medical care – this is not for individuals with an underlying blood disorder.
- ☐ Mother with/at risk for HIV infection (perinatal transmission) cases include the transmission of disease from mother to child during pregnancy. This category is exclusively for infants and children infected by mothers who are HIV-positive or at risk.
- ☐ Risk not reported or identified indicates the individual’s exposure is unknown, or does not fit into the categories above. This includes occupational transmission,

INSURANCE OPTIONS

From the pull down menu, select the client's primary source of health insurance at the end of the current six-month reporting period:

- ☐ *IHS* - Indian Health Services
- ☐ *Medicaid* – Although not listed this way in CAREWare, this option includes Medicaid and Other Public insurance plans. Medicaid is a jointly funded Federal and State health insurance program for certain low-income and other groups of individual people.
- ☐ *Medicare (unspecified)* - Health insurance program for people 65 years of age and older, some people with disabilities under 65 years of age, and people with End-Stage Renal Disease.
- ☐ *Medicare Part A/B* – Medicare Part A covers hospital care, skilled nursing facility care, nursing home care, hospice care, and home health services. Medicare Part B covers medically necessary and preventive medical services.
- ☐ *Medicare Part D* – Medicare Part D covers outpatient prescription drugs for individuals who are entitled to benefits under Medicare Part A and/or are enrolled in Part B (although premiums may be paid by Nevada's ADAP SPAP Program)..
- ☐ *No Insurance* - The client does not have insurance to cover health care costs, the client self-pays, or services are covered by Ryan White funds.
- ☐ *Other* - The client has an insurance type other than the options listed.
- ☐ *Private - Employer* - Group insurance coverage provided through the client's employer (although premiums may be paid by Nevada's ADAP HICP Program).
- ☐ *Private - Individual* - Health insurance plans such as Blue Cross/Blue Shield, HealthPartners, United HealthCare, etc., that are purchased for an individual (although premiums may be paid by Nevada's ADAP HICP Program).
- ☐ *VA, Tricare, and other military health care* – Health plans that provide coverage to service members, veterans, and their families.
- ☐ CAREWare no longer offers Unknown or Other Public as response options for Primary Insurance.

FEDERAL POVERTY LEVEL (HOUSEHOLD INCOME/HOUSEHOLD SIZE)

All clients must present proof of income not to exceed 400% of the federal poverty level (FPL) based on their Modified Adjusted Gross Income. Enter the annual **Household Income** for the current year. A family income refers only to the income on which this individual can legally rely on; e.g., includes income of spouse or minor children. Remember that family income is based on the legal definition of family; e.g., if married and both people work, use both incomes. However, if two people live together and share expenses but are not legally married, do not use both incomes.

- ☐ If the household has an intermittent or uncertain income, have the client estimate their current monthly household income and multiply by twelve.

- ✎ If the household has no income, enter '0'. Ask the client to complete the "No Income Statement Form"
- ✎ If you are uncertain about how to calculate the income for a specific client due to special circumstances, please contact OHA for guidance

All clients must provide proof of **household**. The household consists of the tax filing unit. For individuals who do not file a tax return and are not claimed as a tax dependent, household size is the individual and the following (if living with the individual): spouse/registered domestic partner; natural, adopted, and step children (those under age 21). If applicant is a child, household would include natural, adopted, and step parents and natural, adopted, and step siblings.

- ✎ The response must always be at least '1' for the client.
- ✎ If the client is unclear, ask the client how many family members they are able to claim as dependents on their income taxes.
- ✎ If you are uncertain about how to calculate household size for a specific client due to special circumstances, please contact OHA for guidance.

Poverty Level is automatically calculated using guidance from the United States Department of Health and Human Services, see [80 FR 3236 published January 22, 2015](#).

See OHA Policy 13-02: Modified Adjusted Gross Income for more information.

[See Nevada Health Link's definition of Household Income which is used as the baseline for Nevada's Ryan White Part B program.](#)

HIV PRIMARY CARE LOCATION

This field is asking in which type of setting the client receives their primary HIV medical care. Select one of the following from the Result pull down menu:

- ☐ Emergency Room
- ☐ Hospital/Outpatient Center
- ☐ No Primary Source of Care
- ☐ Other
- ☐ Private Practice
- ☐ Publically-funded clinic or health department
- ☐ Unknown

HOUSING ARRANGEMENT

Select the response from the Result pull down menu that best describes the client's housing situation at the end of the six-month reporting period.

- Institution – Although this option still appears in CAREWare, this is now reported under Stable/Permanent.
- Non-permanently Housed – Although this option still appears in CAREWare, this is now reported under Temporary.

- Other - Although this option still appears in CAREWare, it is not a valid response.
- *Stable/Permanent Housing* – Includes renting or owning an unsubsidized house, room or apartment; unsubsidized permanent placement with family or other self-sufficient arrangement; HOPWA-funded housing assistance (does NOT include short-term rent, mortgage and utility assistance); subsidized housing; permanent housing for formerly homeless persons (e.g., Shelter Plus Care, Supportive Housing Program, and Moderate Rehabilitation Program for SRO Dwellings); or institutional settings with greater support and continued residence expected (e.g., psychiatric hospital/facility, foster care home or foster care group home, or other residence or long-term care facility)
- *Temporary Housing* – Includes transitional housing for homeless people, temporary arrangement to stay or live with family or friends, other temporary such as a Ryan White housing subsidy, temporary placement in an institution (e.g., hospital, psychiatric hospital/facility, substance abuse treatment facility, or detox center), or hotel/motel paid for without emergency shelter voucher.
- *Unstable Housing* – Includes emergency shelter; any location not designed for use as sleeping accommodation (e.g., vehicle, abandoned building, bus/train/subway station, airport, anywhere outside); jail, prison or juvenile detention facility; and hotel/motel paid for with emergency shelter voucher.

Emergency Contact Name and Information

In this field, please ask the client if they have someone that they would like to have as an emergency contact person in case there is an issue at any of the service providers. It is a good idea to have a phone number or mailing address and whether the emergency contact person knows about the client's HIV status.

SSN or TIN

A Taxpayer Identification Number (TIN) is an identification number used by the Internal Revenue Service (IRS) in the administration of tax laws. It is issued *either* by the Social Security Administration (SSA) *or* by the IRS. A Social Security number (SSN) is issued by the SSA whereas all other TINs are issued by the IRS.

SSN or TIN
No SSN

In the Social Security Number/Individual Taxpayer Identification Number (SSN/ITIN) field please use the format **123-45-6789** with the hyphens. Both of these taxpayer ID numbers have nine digits separated by a hyphen after the third and fifth digit. If a client does not have a SSN or ITIN

then type in **No SSN** so that we know that the question was asked – **do not enter in 000-00-0000** – that is inaccurate data and creates errors in data reporting. If a client has a SSN/TIN but does not remember their SSN/TIN type in **UA** for Unavailable. In the past we have asked Eligibility & Enrollment providers to add (SSN) or (TIN) after the nine-digit number. That guidance is no longer effective – **do not distinguish between SSNs and TINs**

Preferred Name/Pronouns

This field is where the Eligibility & Enrollment Specialists can put in the preferred name of a client and the pronouns by which they would like to be addressed. This is an important field for our trans* clients whose legal name on the Demographics page does not match the name they use in their day-to-day life.

Preferred Name/Pronouns

Alternate Phone Number and Alt. Phone Type

These two fields are to collect information related to an alternate phone number the client might have, whether it be a cell phone, work phone, fax, pager, home phone, etc.

Alternate Phone Number	Alt. Phone Type

Preferred Language

Because of the racial and ethnic diversity of our state and with residents of Nevada coming from all over the world, many of our client's prefer to be communicated with in a language other than English. Please type in one language that the client prefers to be communicated with. Please ensure that you are spelling the language correctly.

Appendix V: New CAREWare Client Immediate Referral Plan

The way that CAREWare functions is that each provider can have a sub-database of the clients that have received a service at a particular provider. Not all clients enrolled to receive RWPB services ought to be in the sub-database of each provider at the outset. Only clients who have received services at a particular agency ought to be in the sub-database of that provider. The State of Nevada RWPB Program has established three providers to be Eligibility & Enrollment (E&E) providers.

When a client goes to a non-E&E provider to receive services there is a great possibility that they have already been to one of the three E&E providers to get enrolled in the RWPB Program and have their application completed. Clients are entered into CAREWare on the day that they have their E&E appointment, so that if the client is determined eligible for Care Services the client can receive those services on the same day.

There might be the possibility that a non-E&E provider will attempt to add a client from the main RWPB database into their provider sub-database and that client will not already exist. This will happen when the directions are followed in the [Client Data Entry, Adding a Client into your Provider Domain subsection](#). When this happens, the client record screen will open with no

The screenshot displays the CAREWare Client Record interface for a client named James Cook. The window title is "Cook, James". The interface includes a top navigation bar with tabs: Appointments, Orders, Forms, ChangeLog, Client Report, Merge Client, and Delete Client. To the right of these tabs are buttons for "Find List", "New Search", and "Close". Below the navigation bar is a horizontal tab set with the following tabs: Demographics, Drug Services, Service, Annual Review, Encounters, Referrals, HIV C&T, Relations, Eligibility and Enrollment Fields, Custom Tab 2, and Custom Tab 3. The "Demographics" tab is currently selected. The form is divided into several sections:

- Identification:** Unique ID (JMCO0102841U), Encrypted URN (YaMrYKV9), Sex at Birth (Male), and Encrypted UCI (5E995379949AC45D9D63F2F84AC2E76ACCC39375U).
- Enrollment:** Enrollment Status (Active), Enrollment Date, Case Closed Date, Vital Status (Alive), and Date of Death.
- Medical History:** HIV Status, HIV+ Date, Est? (checkbox), AIDS Date, and Est? (checkbox).
- Other Fields:** Client ID, RWPB Member ID No., Street Address, City, State, Zip Code, County, Phone Number, Race(s), Ethnicity (Non-Hispanic), and Hispanic Subgroup.
- Notes Section:** A large text area for notes, with tabs for Common Notes, Provider Notes, User Messages, and Case Notes.

 A checkbox labeled "Include on label report" is located near the Street Address field.

information entered into any of the fields (aside from the ones you used to add the client to your provider domain and default fields). See the image below for what this looks like.

If this is to happen, the priority is to notify the central eligibility agency through a referral. The client needs to be determined to be eligible before delivering a service to the client. The following steps are to be completed if a non-E&E provider adds a new/undetermined/unenrolled client into CAREWare.

1. Fill in the client's contact information in the **Street Address, City, State, Zip Code, County** and **Phone Number** if that is available.

2. Update the client's **Enrollment Date** as the date that the client received the service.
3. Follow the directions in the [Referrals subsection](#) to create an **Internal** referral to the central eligibility agency with the **Requested Service Category Type** of **Referral: Health Care/Supportive Service** and **Check Eligibility** in the **Referral Class**.
4. In the **Comments from Initiating Agency** – ask that you be notified when the client has been determined eligible. Inform the central eligibility agency in the comments of the date that the service was delivered to the client for that date to be the initial start date of the client's eligibility.
5. Once you receive notification that the client has been determined eligible or ineligible, add the service unit. If the client is determined ineligible, change the **Enrollment Status** to **Referred or Discharged** and the **Case Close Date** of when you received the notification.

Appendix VI: Eligibility and Enrollment Process

1. GENERATING THE RWHAP APPLICATION

While there exists an application for RWPB Services that can be used by a client prior to their Eligibility and Enrollment assessment with an Eligibility and Enrollment Provider it is not a requirement to have the Application completed as long as the required information is entered into CAREWare. The **Client Report** button on the Client's record will produce an individual report that contains all of the required data elements that stands in as the client's application. Please see [Appendix III: Application Correlation to CAREWare](#) for a diagram on where each data element that is on the application is located within CAREWare.

The screenshot displays the CAREWare interface for a client named John James Cook. The 'Client Report' button is highlighted with a red rectangle. The interface includes various tabs and fields for client information, demographics, and enrollment status.

Then select the **Client Report (Two Page)** button for the RWPB Application Fields printout.

A dialog box titled "Client Reports" with a light blue header. It contains five buttons stacked vertically: "Client Report (One Page)", "Client Report (Two Page)" (highlighted with a red border), "EncounterReport", "Bar Code Labels", and "Close".

2. GENERATING THE RWPB COVERSHEET

The Coversheet is a very important part of the Enrollment Process as it contains the necessary information for the Quality Managers to immediately know the program, status, and vital notes on a client that has been seen by an Eligibility Specialist. The Coversheet is a form that has been created in CAREWare that will allow the Eligibility Provider to automatically fill the necessary fields, print out the form, have the client attest that the application information is correct then scan the Coversheet into the eligibility document package detailed in the [Attaching Eligibility Documents](#) section. Begin, by first being in the client's record and click the **Forms** button.

A screenshot of the CAREWare client record form for "Cook, John James". The "Forms" tab is selected and highlighted with a red box. The form contains various fields for client information, including demographics, enrollment status, and contact details. The "Forms" button in the top navigation bar is also highlighted with a red box.

Demographics		Enrollment Status		Vital Status	
First Name:	John	Enrollment Status:	Active	Vital Status:	Alive
Middle Name:	James	Enrollment Date:	6/5/2015	Case Closed Date:	
Last Name:	Cook	Eligibility Status:	Not Eligible for Ryan White

This will open up the CAREWare Custom Form Designer window. In the right hand of the screen there is the option to **“Add Nevada RWPB Cover Sheet & Affidavit Form.”**

When you click that then the Coversheet will populate. Complete the form by selecting the various **dates**, **application type**, and ensure that the **Documents** that are provided in the packet are checked, etc. Print out the form when complete, have the client sign the form to affirm that the information supplied in the Client Report printout is correct. Scan the signed form to be included in the full eligibility packet.

Appendix VII: ADAP Drug and Insurance Assistance Enrollment

1. ADAP DRUG AND INSURANCE ASSISTANCE PROGRAM ENROLLMENT

Only providers who are part of the drug and insurance assistance service category will have the option to log into two different domains when they enter their CAREWare username and password on the main screen. When entering in Insurance Service data, select the **NEVADA ADAP Program** domain and click **OK**.

The Main Menu will look the same for the Nevada ADAP Program except that the logo will be the Nevada State Seal.

The process works the same, in that each client of the Nevada ADAP Program (both drug and insurance assistance) must be entered into the sub-database/provider database. This is done through the process outlined in the [Adding a Client into your Provider Domain subsection](#).

On the client's **Demographic** tab, the screen will look the same as in a provider Domain, but the important distinction is that the **Enrollment Status** section is now called **ADAP Enrollment Status**.

When a client is enrolled, and re-enrolls, in an ADAP service of drug or insurance assistance click on **Enrollment History** which opens the **ADAP Enrollment History** window. Click **Add Record** to enter in a new **Eligibility Status** for ADAP. Then change the **Application Date** on the **Demographics** tab to when the date that the client was received into the ADAP Program.

2. DRUG SERVICES

The central Eligibility and Enrollment provider will also have access to the Nevada ADAP Program Domain within CAREWare. This is where the Providers will be able to see the drug services that the client received in the **Drug Services** tab. The information that will be in the Drug Services tab will come from the Pharmacy Benefit Manager. There will be no tasks to complete out of this tab.

The screenshot shows the 'Drug Services' tab for a patient named 'Cook, John James'. The interface includes a top navigation bar with tabs for 'Appointments', 'Orders', 'Forms', 'ChangeLog', 'Client Report', 'Merge Client', and 'Delete Client'. Below this is a search bar with a 'Find List' button and a 'New Search' button. The main content area is a table with columns for 'Date:', 'Dispenser:', 'Generic:', 'Brand:', and 'NDC:'. The table is currently empty. At the bottom, there are buttons for 'Add', 'Edit', and 'Delete', and a 'Results per page: 100' dropdown menu.

Date:	Dispenser:	Generic:	Brand:	NDC:
-------	------------	----------	--------	------

3. INSURANCE SERVICES

The Eligibility and Enrollment Providers will also have access to the Nevada ADAP Program Domain within CAREWare. This is where the Providers will enter the necessary insurance information. The **Insurance Services** tab is required to be completed for clients receiving insurance assistance through RWPB.

Insurance Services works in the same way that the Services tab works for the RWPB Care Services with some slight variations. Review the instructions in the [Adding Care Services](#) subsection. The provider responsible for making insurance payments on behalf of a client will select the Nevada ADAP Program domain when they initially log into CAREWare. Only that provider will have the option to choose between their domain and the Nevada ADAP Program domain.

1. The *Nevada ADAP Program* domain looks the same as the provider domain and functions in the same way, where clients need to be added to the sub-database of the ADAP Program through the **Add Client** button.
2. Once a client is added to the *Nevada ADAP Program* domain, then navigate to the **Insurance Services** tab and click **New Service**.

The screenshot shows the CAREWare interface for John James Cook. The 'Insurance Services' tab is selected and highlighted with a red box. Below the tab, there are buttons for 'New Service', 'Edit Service', and 'Delete Service', with 'New Service' also highlighted by a red box. A table of services is displayed below, with columns for Date, Subservice, Contract, Units, Price, Total, Amount Re..., DomainNa..., Service Pr..., Start Time, End Time, and Er. The table contains 15 rows of service data. At the bottom, there is a search bar, a results per page dropdown set to 50, and pagination controls showing 'Page 1 of 1'.

3. Select the **Date** that the service was delivered and **Service Name**. The Months Covered field is default to 1 which is a one month supply of medication (for Co-Payment or Co-Insurance), one month of insurance coverage (for Premium Payment). If a quarterly payment is made, then the **Months Covered** unit would be 3. The **Price** must reflect what 1 unit would cost so that the **Cost** is a multiplication of the **Months Covered** unit and **Price**. Select the name of the employee coordinating the payment and enter any necessary comments. Click **Save**.
