

# Nevada Integrated HIV Prevention and Care Plan

## 2018 Accomplishments and Future Needs

### GOAL 1

Reducing New HIV Infections

Northern & Southern Nevada CPG's have mental health representation

98 providers & 13 community programs trained on PrEP/Pep

Over 10 new locations have been certified as rapid testing sites

Over 23,000 HIV test conducted

Over 204,000 condoms distributed

#### GOAL 1 NEEDS:

Community Partnerships

Continue collaboration with board of education to promote comprehensive sexual health education and identify CBO's that could provide capacity building for SSPs.

### GOAL 2

Increasing Access to Care and Improving Health Outcomes for PLWH

At least 13 agencies attend APG/SPEC meetings

HOPES & Help of SN added mental health providers in 2018

90+ trained at RW conference or other advanced trainings

Clinical programs include medication management support & education

7 agencies reported using standardized assessment forms for all providers

#### GOAL 2 NEEDS:

Connecting to services

Continue to Improve efficiency of CAREWare system. Develop resource guide and outreach to all providers.

### GOAL 3

Reducing HIV Related Disparities and Health Inequities

Listening sessions are in progress in Northern & Southern Nevada

At least 45+ providers have been trained for on-site testing

Over 800+ employees or volunteers trained on bias/stigma

Had annual provider showcase to enhance services

128+ bi-lingual staff members across organizations

#### GOAL 3 NEEDS:

Population-specific prevention

Expand website to be community specific and determine other languages needs besides Spanish.
