No comment. <b>441A.320</b> maybe remove specific mention of HIV since it is a STD/STI (CDC uses STI and STD language, per Amend.)
c. Identify any disparities in arrests, prosecutions or convictions under such statutes or regulations related to race, color, sex, sexual orientation, gender identity or expression, age or national origin;	174.031 201.205 201.356 201.358 201.354 209.385  441A.300	Stephan Page Octavio Posada		08/12/2020		<b>174.031</b> leave as is. <b>201.205</b> up for possible repeal. If not repealed, what is an alternative. Perhaps move to misdemeanor (of which there are different categories). Add language around U=U and/or condom use. However, U=U can't be a standard, but maybe an affirmative defense. Make change to definition of what it means to be 'positive.'

						<p><b>441A.180</b> HIV as a communicable disease; therefore, no need for 441A.300 (don't make change). Could be used to justify repealing 201.205.</p> <p><b>441A.300</b> should be repealed.</p> <p><b>201.356</b> should someone have to pay \$100? Some agree. Some don't. Look at just of laws and stigma. Who should bear costs? Perhaps flat fee for all STI/STD testing.</p> <p><b>201.385</b> 3(a)(b) to be revisited for discussion.</p> <ul style="list-style-type: none"><li>- mimic recommendations of 201.205. There is already a punishment for prostitution. Incorporate affirmative defense.</li></ul> <p>Enhancements for forceable sex crimes?</p> <p><b>209.385</b>(a)(b) looked at regulations in 2017, then reversed. No reference to defendants viral suppression. Is segregated defined in NRS? If no definition, then would be up to director. Do we need to look at PREA?</p>
