

Nevada Ending the Epidemic Workgroup  
Monday, September 14, 2020 12-1pm  
Meeting Notes

23 EHE Workgroup members were present.

Updates:

- RW Part A- UCSF project coordinator had a death in the family, and that has slowed down the hiring process for the Part A's new coordinator. Part A will have this first learning collaborative on Rapid StART November 2<sup>nd</sup> and 4<sup>th</sup>.
- RW Part B-no announcements
- SNHD/Fast Track Cities- the SNHD attended the Fast Track conference last week. They will have more to share at a later date.
- State Prevention Programs- WCHD and SNHD are working with Senator Dallas Harris on a bill that will reward physicians for offering HIV testing in their clinics.
- UNLV EHE Team- Still working on the draft images and messages for the EHE marketing campaign.
- Andre Wade, HIV Modernization Task Force- Finalized a preliminary report to modernized HIV in Nevada.

EHE Update:

Victoria Young and Jennifer Bennett presented the Clark County's EHE Plan. There was some discussion on how accurate the PrEP data was in the epidemiological profile of the report. The data was pulled from a CDC report using the EHE six indicators that was produced for all 48 phase I jurisdictions. The PrEP data will be flagged for the EHE statewide plan. The next steps for the EHE initiative will be to complete Nevada's situational analysis using data from the needs assessment and then to write up the EHE statewide plan.

There were no other announcements.

Next meetings:

- Monday, October 5<sup>th</sup>, 12-1 pm via phone and Zoom
- Monday, November 9<sup>th</sup>, 12-1 pm via phone and Zoom
